

Handi-Shims

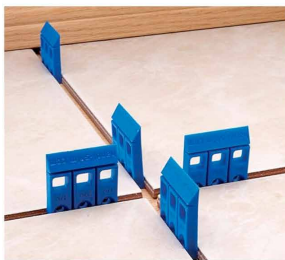

Handi-Shims are a revolutionary way of shimming, spacing, plumbing and leveling. They are available in four sizes; 1/32" (green), 1/16" (red), 1/8" (white), and 1/4" (blue).

Supplied coupled, meaning they are manufactured as two shims connected at their non-beveled ends to provide convenient, double-length, flat-support installation for deep applications. For normal applications, the shims can be separated and, for particularly small spaces, are scored to be divided into even smaller pieces. A single shim measures 1-3/4" inches square; the coupled pair measures 3-1/2" by 1-3/4". 100 per pack, sold per pack. Assortment pack (HS-A) available.

Adjustable Size
Score along the edges to customize for your project.

Even Spacing
Made with flat edges and are compression resistant for a consistent finish.

Variety of Uses
Made from non-toxic plastic, ideal to plumb, shim or space.

HS-A
Assortment Pack:
24 pcs - 1/4"
24 pcs - 1/8"
26 pcs - 1/16"
26 pcs - 1/32"
